Response to Amendment

1. This action is responsive to the amendment filed on October 9, 2008.
Claims 1-24 have been canceled. Claims 25-49 have been newly added. Claims 25-49 are pending.

Election/Restriction

2. Restriction to one of the following is required under 35 U.S.C. 121:
 - I. Original Claims 1-24 are drawn to computer-to-computer session/connection establishing, classified in 709, subclass 227.
 - II. Newly submitted claims 25-49 are drawn to session/connection parameter setting, classified in 709, subclass 228.
3. The inventions are distinct, each from the other because of the following reasons:

Subcombination-Usable Together

Inventions group I and group II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because it distinctly relates session/connection parameter setting. The subcombination has separate utility such as session/connection parameter setting.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
6. Newly submitted claims 25-49 are directed to an invention that is independent or distinct from the invention originally claimed for the reasons above. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 25-49 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Response to Amendment

7. The reply filed on October 09, 2008 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): No claims to examine and the remarks are directed to the newly added claims that have been withdrawn from consideration by Restriction/Election by original presentation. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*,

applicant is given **Three (3) Months** from the mailing date of this notice, within which to supply the omission or correction in order to avoid abandonment.

EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
